March 2nd, 2015

Dear Valued Distributors,

Brighton Best International (BBI) is pleased to announce its acquisition of EZ Sockets, Inc., an industry leader providing high quality Socket Screws and related products since 1978. E Z, with five distribution centers across the United States is known for its extensive inventory of semi-standard and special sizes, competitive prices, and high service level. The purchase was structured as an asset transaction.

Jun Xu, President of Brighton Best International, commented the combined strength of BBI and EZ Sockets will provide tremendous value and benefit to our customer partners across the distribution channel by offering the broadest most complete line of socket products in alloy and stainless material, inch and metric standards, as well as the industry leading line of off the shelf specials and semi-standards.

Ed Werner, President of EZ Sockets, agreed that this acquisition makes sense. Combining EZ Sockets' broad range of sizes and strong reputation and presence in the market along with BBI's reputation for quality, deep inventory and BBI's unique and intuitive web ordering system, offers distributors an unprecedented service option.

Jun Xu and Mr. Werner expressed their appreciation to the customers, suppliers and employees who have shown their support to their individual companies in the past and promise to keep BBI successful as we move forward by combining the strengths of each organization.

We greatly appreciate the support we have enjoyed from our existing customer base and welcome customers that may not have experienced Brighton's deep inventories and high levels of customer service from Brighton's 30 locations worldwide.

Respectfully,

Jun Xu
President, Brighton Best International

Edward Werner
President, EZ Sockets
